## DVB-COMBO I

- This User Guide is about daily use. See the Setup Guide about installation.

Advanced OneRemote circuitry has been added to this receiver, OneRemote DVB-Combo I, enabling it to be part of a remotely controlled Bang & Olufsen system. Complete control is obtained with a Bang & Olufsen remote control terminal.

OneRemote DVB-COMBO I may be connected to any Bang & Olufsen TV with a Scart socket and controlled by Bang & Olufsen remotes. If the Bang & Olufsen TV has a HDMI or DVI socket, a cable can be used to improve the picture quality.

When switching on the DVB-COMBO I with a Bang & Olufsen remote the Bang & Olufsen system is switched on too and the input with the DVB-COMBO I automatically selected.

The modified receiver is named DVB-Combo I.

**The DVB-Combo-I is controllable only when connected to a Bang & Olufsen TV, that sends control data via a Scart Cable connection.**

**DVB-Combo I is therefore only controllable with the TV's Bang & Olufsen remote control.**

## USING OLDER BANG & OLUFSEN REMOTES

This receiver is controlled easiest with a newer B&O type remote control like Beo4 or later, due to the colored keys.

The receiver can be controlled with older remote controls like Beolink1000.

The colored key-commands may be sent with a Beolink 1000 using two sequence keying, as shown below.

<b>PLAY</b> <b>PLAY</b>	Press twice to select
<b>MENU</b>	Main Menu
<b>GOTO</b>	Return
<b>STORE</b>	Exit
<b>PLAY</b> <b>STORE</b>	Search
<b>SHIFT</b>	BLUE
<b>SHIFT</b>	RED
<b>SHIFT</b>	YELLOW
<b>SHIFT</b>	GREEN
