## DVB-COMBO II

This User Guide is about the daily use of the receiver. See the Setup Guide about installation.

Advanced OneRemote circuitry has been added to this receiver, OneRemote DVB-Combo II, enabling it to be part of a remotely controlled Bang & Olufsen system. Complete control is obtained with a Bang & Olufsen remote control terminal.

The OneRemote DVB-COMBO II may be connected to any Bang & Olufsen TV with a Scart socket and controlled by Bang & Olufsen remotes. If the Bang & Olufsen TV has a HDMI or DVI socket, a cable can be used to improve the picture quality.

When switching on the DVB-COMBO II with a Bang & Olufsen remote the Bang & Olufsen system is switched on too and the input with the DVB-COMBO II automatically selected.

The modified receiver is named DVB-Combo II.

**The DVB-Combo-II is controllable only when connected to a Bang & Olufsen TV, that sends control data via a Scart Cable connection.**

**DVB-Combo II is therefore only controllable with the TV's Bang & Olufsen remote control.**

## USING OLDER BANG & OLUFSEN REMOTES

This receiver is easiest controlled with a newer B&O type remote control like Beo4 or later, due to the colored keys.

The receiver can be controlled with older remote controls like Beolink1000.

The colored key-commands may be sent with a Beolink 1000 using two sequence keying, as shown below.

<b>PLAY</b> <b>PLAY</b>	Press twice to select
<b>MENU</b>	Main Menu
<b>GOTO</b>	Return
<b>STORE</b>	Exit
<b>PLAY</b> <b>STORE</b>	Search
<b>SHIFT</b> <b>▲</b>	BLUE
<b>SHIFT</b> <b>▼</b>	RED
<b>SHIFT</b> <b>»</b>	YELLOW
<b>SHIFT</b> <b>«</b>	GREEN
