	6	Viera link
	7	Viera cast
	9	3D

Temporarily disabling the OneRemote TV Conversion

A OneRemote modified Beo4 remote control controls non-Bang & Olufsen devices, in this case a PANASONIC TV. But it is possible quickly to disable/ enable conversion, thus being able to control both a non-Bang & Olufsen PANASONIC TV and alternatively a Bang & Olufsen TV.

Simply, at any time, enter the two-key sequences from below table.

TV	Controls a Bang & Olufsen TV:	Volume down followed by 0
TV	Controls a PANASONIC TV <i>factory default</i> :	Volume down followed by 1
