User Manual

Converter installed in a Beo4

OneRemote RMB4

Converter for Beo4

Type 35104451 controls

Samsung TV

all TV models

+ Apple TV

With a OneRemote RMB4 converter installed in your Bang & Olufsen Beo4 remote control terminal you may also control a Samsung TV with that terminal. You may still operate Bang & Olufsen devices.

The RMB4 factory setting will fit most users, making it possible to fully control a Samsung TV as with its original Samsung remote control.

This manual covers daily use. Refer to the Setup Manual for special installations where further integration is needed. Maybe setups including other Bang & Olufsen devices or even.
