

# User Manual

Converter installed in a Beo4

## OneRemote RMB4 Converter for Beo4

Type 35104530 controls

## Philips TV all TV models

+ Apple TV

With a OneRemote RMB4 converter installed in your Bang & Olufsen Beo4 remote control terminal you may also control a Philips TV with that terminal. You may still operate Bang & Olufsen devices.

The RMB4 factory setting will fit most users, making it possible to fully control a Philips TV as with its original Philips remote control.

This manual covers daily use. Refer to the Setup Manual for special installations where further integration is needed. Maybe setups including other Bang & Olufsen devices or even.

	▲	Smart TV
	▼	Options

## Apple TV Special Control Tables

Press **DTV**

- Change Beo4 control to an Apple TV.

In addition to everyday controls, there are some special controls for the Apple TV. See the tables below.

AppleTV Power	
	Power on
	Power on, short press
	Power off, long press

AppleTV Control	
	Menu
	Play/ pause
	Enter
 	Use arrow keys for screen manoeuvring.
 	

AppleTV Control – Beo4 Navi	
	Menu
	Play/ pause
	Enter
 	Move the stick for on screen manoeuvring.
 	

## Temporarily disabling the OneRemote TV Conversion

---

A OneRemote modified Beo4 remote control controls non-Bang & Olufsen devices, in this case a Philips TV. But it is possible quickly to disable/ enable conversion, thus being able to control both a non-Bang & Olufsen Philips TV and alternatively a Bang & Olufsen TV.

Simply, at any time, enter the two-key sequences from below table.

<b>TV</b>	Controls a Bang & Olufsen TV:	Volume down followed by <b>0</b>
<b>TV</b>	Controls a Philips TV <i>factory default</i> :	Volume down followed by <b>1</b>

## Beo4 Philips TV Everyday Control Table

**TV control tables - when the center key of the Beo4  is a joystick \*1**

Philips TV Everyday Controls
