## 1. Security guidelines

Please read this user manual carefully before connecting the receiver. Keep this user manual for later use.

Always place the receiver on a plain surface, i.e. not on carpets, soft furniture etc.

If the receiver has been exposed to any form of humidity, or if it has been otherwise damaged, it should be checked by a technician.

#### Warning

Do not open the receiver, as this may cause an injury.

Ensure that there is plenty of room above and around the receiver and that ventilation holes are not covered or blocked in any way.

Do not place the receiver in a closed cabinet or on top of any other item that produces heat.

#### Declaration

This product conforms to the specifications of European standards: EN 60065:2002, EN 55013:2001 +AI:2003, EN 55020:2002, EN 61000-3-2:2000 and EN 61000-3-3:1995 + A1:2001

#### Swan certificate

This product has been approved by the environmental standards of the Swan Certificate Association. Power consumption is low during use, and it decreases when on stand by. Power consumption will decrease to minimum if the plug is switched off, when not in use.

For more information see: <u>www.svanen.nu</u> or <u>www.ecolabel.nu</u>

During construction of this receiver we have made sure that it is possible to separate the materials for recycling. Accordingly, please bring the receiver to a recycling centre when disposing of the product.

If you further want to support our environmental care please return the receiver to your dealer if it is malfunctioning. He will then return it to us to ensure that it is repaired using the original parts.

## 2. Package Contents

	Maximum T-541 VA
	Remote control R2
Deckage	SCART cable
contents:	Power supply 12V DC
	Manuals
Extras needed:	Program card
	Antenna
Active Antenna	

Maximum T-541 VA can feed your antenna with a +5V power supply. This is the default setup. If this power source is unnecessary, please follow this procedure on your remote control:

Menu → Settings → general settings → active antenna

Selections are confirmed by pressing the OK button. To enable or disable push the << or >> button.

## 3. Initial Installation

When connecting the receiver for the first time, this menu will appear:

Country OSD Language	** **	English	) Ion
Country	144	oneach	
		Sweden	<b>P</b> FI
Check that the antenna	is connected	lo the box.	
Wel	come!		

#### A clear signal

Please check that your TV has a signal. With the P+ and P- buttons you can select "Check Signal" and then confirm by pressing OK

This menu will appear:

Now enter the channel number given to you by your TV station or TV store. Enter

	NA A VINALINAS
Signal Reception	IVIAXIIVIUIVI" IIIIdigital technology
Channel Number	144 K M 54
Frequency	738000 kHz
Monitoring frequency:	738000 kHz
Signal Strength	
Signal Quality	

the digits on the remote control. Your signal quality indicator must turn green.

**In case of no green signal** you may try to run a "Quick Installation". In that case Maximum T-541 VA will seek within a defined range of frequencies to find suitable channels.

4. Connecting the receiver

To connect the Maximum T-541 VA receiver to your TV set use a HDMI cable or a scart cable.

Connect the receiver to an antenna.

Insert the program card with the chip facing downwards. Maximum T-541 VA is ready to seek TV channels for your TV set.

### 5. Quick installation.

After having checked the signal, leave the signal menu using the **back** button. Select "Quick Installation". All selections are confirmed by pressing the **OK** button.

Choose TV format as zoom or 4:3. Make your choice by pressing the **OK** button. Continue the installation by using the **P**-.

Maximum T-541 VA will search and find all suitable channels.

You may be asked to choose between networks using the buttons P+ and P-.

## 6. Remote Control Basics

Guidelines about the remote control are found on page 23. Tip! Hold the remote control in your hand while reading this manual.

#### Up and Down

To move up and down press the P+ and P-. Or you can choose channels by entering the number directly with the numerical keyboard.

Left and right To switch between left and right use the << and >> buttons.

#### Volume

Turn the volume up and down by  $V_+$  and  $V_-$ To deactivate/activate the sound use the vertical button:

Choices Confirm all choices by pressing **OK**.

#### Exit!

You can always return to the TV program by pressing the **EXIT** button or go one step back by using the **BACK** button.

Operating the receiver without the remote control:

With the two buttons on the front panel, you can choose channels – down and up – button one and two from the left. The button to the far right is used to power ON & OFF.

### 7. Text TV

TXT button activates and deactivates the Text-TV function.

Enter page number.

You can switch between the previous or the following pages with the P+ and P- buttons.

Automatic page shift is activated when the same page number contains more than one page. If you want to delay this function just press the OK button. Deactivate the automatic page shift function by pressing the OK button.

Easy way to find the latest page. If you leave the Text-TV and later return to the same channel, you will still be on the Text-TV page you last visited.

To move back and forth between pages you have been reading. Press the << and >> buttons.

#### MAXIMUM<sup>®</sup> In digital technology

### 8. Channels

#### **Favourite Channels**

Make your own TV lists containing your favourite TV-channels. This will give you a personalized overview, where you can organize up to 6 lists (A-F) with your own, or your family's favourite choices.

To find the Channel List and other settings, press the menu button.

Menu	→ Channels —	<ul> <li>Channel lists</li> </ul>
	Channel Lists	
	All Channels	Favourites A
	1.DR1 2.DR2 3.DR UPDATE / Tegnsp 4.TV 2 (Fyn) 5.TV4 Öresund 6.TV6 8.YLE24 9.YLE Teema 10.TV4 Plus 14.TV4 Flm 24.TV4 Fakta 26.CNN 50.TV400 487.Das Erste	<list empty=""></list>
	Previous List Sector Next List	at

The actual list can be seen in the left window. Your favourite lists are displayed in the right window.

**Enter channels** to the favourite list by choosing the channel in the left side and confirm your choice by pressing the **OK** The same channel can now be seen on the favourite list to the right.

## 9. Information Shortcuts

### Quick Info

Maximum T-541 VA provides you with an overview of the programs you can choose from. You get three very fast shortcuts to all-round information about TV programs:

### Quick Info press i

The i button opens information about the current program and what is coming next.

### Press i once:

The name of the channel appears. The title of the current program, its start and ending time is visible. The next program is visible below. The clock appears in the top right hand corner.

### Press i twice

An extra window opens where you can read information about the program in progress. If necessary, you can scroll by using the P+ and P- buttons.

### Press i three times

All information is deactivated.

### To go back to the TV program press exit or i once more.

### Smart program surfing at the i

While enjoying your current program, you can see what is being shown on any of the other channels. By pressing the i once, information about the current and the following program appears on your screen. By pressing the P+ button you can watch all the channels on the actual channel list. Every channel shows information about the current and the following program.

If the information tempts you to switch to another program confirm by pressing OK.

### **Extensive Program Info**

If you want an immediate overall view where you can see the channel list and all the current programs, press the **ok** button.

A window appears showing all the channels on the list in question. You can see all the current programs on all channels, and you can see the time when they started and when they will end.

Move up and down using the P+ and P-

To shift between channel lists use the green and the blue buttons. Thus you can easily switch to another channel list, maybe to check the children's favorite list or another list of your own. This can be done while watching your program.

'Yellow'

**Program info for every single channel.** You can see what will be shown in the next program on each channel. Press the yellow button to choose next program.

It is possible to set a timer using the red button. The timer will activate Maximum T-541 VA at the preset time.

Remember to set a timer on your video recorder too. Read info about video on p. 16.

# MAXIMUM®

### Electronic Program Guide - EPG

Press the EPG button to get an extensive, daily and weekly, overview of the programs.

#### Another way to find the EPG is via the menu:

Menu Guide This menu will appear: MAXIMUM DR UPDATE / Tegnsprog 44 DR1 TV 2 (Fyn) The headline displays the actual channel on Today 2008-06-13 Aftenshowet (NOW) the left. The other channels on the same list (NOW) 16:9 SD For første gang i dansk TV taler den omstridte kirurg Jørn Ege ud om 4 år på flugt fra dansk presse, politi og myndigheder. Du kan møde ham i Aftenshowet og før første gang høre lægens egen version af de mange sager mod ham. Mød Jørn Ege i Aftenshowet på DR1. 12:36 Aftenshowet (NOW) 13:05 Aftenshowet 2. del 13:28 Forfatter i Paris - Henry Mil 13:35 Biomsterkvartet - Husapote 13:50 Forandring på vej (10:10) 14:19 Når storken svigter - fem år 14:50 Nyheder på tegnsprog 14:59 DR Update - nyheder og vej 15:09 Davson's Creek (16:128) 15:52 Boogie Boblerne 15:59 Boogie Listen 15:09 Davsen are visible, but not highlighted. Aftenshowet på DR1 Shift using the << and >> buttons 17:00 That's so Raven 17:23 F for Får 🔵 Previous Day 🥥 Next Day 🗢 Next List 😑 Add Timer

**Today's**, and the coming week's, programs are listed in the window to the left, for the actual channel. To move up and down the list, use the green and the blue buttons:

#### The actual date is illustrated at the top of the list.

**Further details about each program** will appear in the right window as you move up and down the list on the left side. If you move through the guide too many days ahead, however, the information may not appear. This may occur because it has not yet been released by the TV station. If necessary you can scroll in the right window using the yellow button:

'Red'

You can set a timer function using the red button.

### 10. Timer Settings

Timer settings are very easy and can be done in a many ways. You can set a timer directly from the big info menus, by pressing the **OK** and the **EPG**, or simply by choosing the shortcut red button. Then the timer is activated automatically from the program guide.

#### Manual Timer Settings

Another option is timer setting from the Menu:

Menu

Timer

This menu will appear:

To set a timer you simply position yourself at the top line and confirm at the **OK**.

Every time you want to set another timer you move down the list activating **P**-.

Every time you confirm at the **OK** another window will open...

Tin	ners		MAXIMUM <sup>®</sup> Inilidigital technology	
1: 2:	2008-06-13 2008-06-13	13:10 - 13:40 13:50 - 14:50	Once, TV 2 (Fyn) Weekly, DR1	
3: 4: 5:				
6: 7: 8:				
e Re	emove.			

Always remember to activate the Video Recorder as well!

## 11. Video programming

This menu guides you through the video programming process:

You enter the correct information by overwriting the suggestions already there. The timer is default, set to one hour.

This means that you can choose to accept programs that last less than one hour.

Channel	144	TV 2 (Fvn)	
Date		2008-06-13	
Start Time		12:32	
Stop Time		13:32	
Repeat	144	No repeat	
	Discard change	es St	ore

Go through the timer programming moving down using the P-. When finished, you can store your selections by pressing the or button. Alternatively you can discard your programming selections by using the << button .

You are automatically guided back to the timer list where you can see your settings displayed.

If you want to make another setting, choose P- to move down the list. Confirm using the or button.

When a timer is active the receiver is locked and **LOC** appears in the display. Pressing **EXIT** will cancel the timer and the receiver will go back to normal operation.

Remember to set the Video Recorder!!

## **12. Quick Options** Quick options at the SRC button.

At **SRC** you can easily change the spoken language and subtitles in the program you are watching right now. The picture format can be changed as well:

This menu will appear:

Subtitles are changed with the << and >> buttons.

**Original audio language** is an option at the << and >> buttons.

Picture format can be changed

Quick Options				
Subtitling Language	144	Danish	<b>&gt;&gt;</b>	
Audio Language	144	Danish	<b>&gt;&gt;</b>	
Picture Format	<b>I44</b>	Black Borders	<b>&gt;&gt;</b>	
		SCART Relea	ise	

Scart release.

The SCART release signals to the TV set that this SCART input should no longer be the prioritized input. Typical use is that you want to watch some other input of the TV (HDMI, RF or second SCART).

Move down with the P- and confirm at the OK.

# MAXIMUM®

13. General Settings

The Menu button gives you a lot of options:

#### Language settings:

### 14. Access Control

#### Parental lock

You can lock a channel this way:

Menu → settings → general sett	tings
The actual channel list opens to the right.	Access Control MAXIMUM®
Move back and forth between channel	Eock/Unlock Channels Parental Control Change PIN
buttons.	Lock/Unlock Menu
Choose a channel and confirm to	
activate the lock	
using the or button.	
A locked channel can only be opened with a PIN code.	

### PIN Code

Maximum T-541 VA has a preset PIN Code which is 0000. You can choose your own code by entering other digits. You will be asked to confirm your code by entering the digits once again:

Menu	-	settings	-	general settings	->	access control	-	change PIN
------	---	----------	---	------------------	----	----------------	---	------------

#### Lock/Unlock Menu

You can lock your timers and menus like this:

Menu  $\rightarrow$  settings  $\rightarrow$  general settings  $\rightarrow$  access control  $\rightarrow$  lock/unlock menu

You deactivate the menu lock using the << and >> buttons. Access to locked menus and settings will only be allowed after providing a PIN code.

## 15. Program card

Check the status of your program card

Conditional Access is an overview of the program card:

Subscription status Tokens Status Event status Messaging Change CA PIN Maturity Rating About Viaccess CA

## 16. Software Updates

#### Updates

One of our objectives in the development of Maximum T-541 VA has been to create a menu system that is easy to use. It is a high quality software, and in case we need to update, the updates can be run automatically.

You can also choose to update software manually like this:

Menu

software Update

Confirm update using the **OK** button.

Wait a few seconds and you will get a message concerning the latest updates.

Maximum T-541 VA has an automatic updating service within the default setup

# MAXIMUM®

## 17. Reinstall

You have the option to start all over again and reinstall all channels. Be aware however, that it means that all your settings will be erased:

## 19. FAQ

No signal:	Check the antenna and the cable.
Picture/sound is missing:	Problems with connection – check the SCART/HDMI plug.
Picture freeze:	Check the antenna
Encrypted channel:	Enter PIN code
Remote Control failure:	Check the batteries Make sure that the TV is connected, and check that there is no obstruction between the remote control and the receiver. Be sure you point the remote control directly at the front panel.
It does not work in an adjacent room:	Antenna signal is too low. Try to connect directly to antenna.
